# BRETZ BEDS

## Philosophie

»The things we do for a good night's sleep. To regain our strength for the next day, and to give into our most beautiful dreams. Our bed is the our safe haven, a small oasis of peace.«

BRETZ upholstered beds are setting standards world wide in design and quality. But that's not all: Like our sofas and armchairs, our beds have to meet the best ergonomic standards as well. Because only if when mattress and under-mattress, or slatted bed base, are an ideal fit, body and soul can fully relax and regenerate during sleep. You feel completely refreshed the next morning, full of energy for the new day. That is why only the best materials

find their way into our workshop, after they have been carefully checked against the newest medical and ergonomic standards.

In typical Bretz fashion is also a bed's individuality: all our beds can be ordered in one of our 170 cover fabrics and with different size mattresses, so that each Bretz bed fits perfectly into its new home.

»Refreshing sleep meets innovative design.«

# CLOUD 7

Space age meets comfort

The futuristic form and the well liked look of Cloud 7 sofa were included in this bed and thus give it the same unmistakable charm and character. Where the sofa actually comes across as a futuristic space ship, the bed's headboard reminds more of a stylized cloud. But it still keeps its dynamic space age character!

# CREOLE

Art déco for your bedroom

The design principle of the bed Creole is based on the form of arches, which can be arranged in different lengths and combinations. These arches are wall panels which are being fitted to a wall and thus form the bed's back behind the free standing bed base. The modular concept of the single Creole integrates the customer in the design process and thus enables them to create their own individual mural style head board.
