EDGY

In a new seat depth

Edgy is a celebration of design. Inspired by the 80's game Tetris, Edgy is based on a system of cuboids which can be endlessly added to and repositioned to meet changing needs. The interplay of different module depths: 82 / 122 / 162 / 202 cm enables a flexible solution for every room. Its functionality, clean lines and easy adaptability cater perfectly to the urban lifestyle. With its rounded edges and well-designed upholstery, its superior comfort is palpable. Uncomplicated, spontaneous and without limits - that's life with Edgy.

EDGY

New ideas

The sofa is the place to curl up and relax. All of us, after all, need a place to retreat and unwind. But what if the size of our classic Edgy is just too much for your living-room? You'd rather sit than lounge, or maybe even both? Thanks to the narrower modules, Edgy now fits into really any room, so that Edgy now finds space even in the smallest room. The combination with the deeper elements creates even more freedom in choosing your individual configuration. so the new seat depth allows for even more design options, making Edgy a possibility in the smallest of rooms. The new modules can be integrated in the form of a footstool, daybed or seating. The support roller with its „roll-back effect“ provides supreme comfort and is a flexible alternative to the fixed backrest, adding yet more modularity.

EDGY

In its classic
dimensions

True characters are quirky and love their freedom. So why not turn your living-room upside-down at 3 o'clock in the morning? After all, a change doesn't hurt anyone. Now ask yourself this: Chaise longue on the left? Or on the right? Back-rests, yes, no, maybe? Thanks to Edgy's generous dimensions, it offers not only supreme comfort but also ample room for guests, family and friends. In its clear, constructive way, Edgy combines the maximum in freedom and cosiness!

EDGY

Facts & Highlights

Optimal flexibility for a life that never stands still:

- Modular system based on a 40 cm grid with 4 seat depths: 82/122/162/202 cm and 4 module widths: 82/122/162/202 cm
- Highly-adaptable thanks to removable/repositionable backrests
- Choice of fixed backrests or flexible support rollers with "roll-back effect"
- Creative freedom: select an exciting mix of fabrics for your seating and backrests
